

SAFE STAY BECAUSE WE CARE

Safe Welcome: Ensuring a safe environment for our guests from arrival to departure such as web check-in / check-out through the e-concierge system.

Safe Space: Ensuring thorough sanitizing and disinfection of the hotel's public areas and leisure facilities. We also have 24-hour in-house clinic operations.

Safe Team: Ensuring the health and safety of our team members and providing guest service with extra care. Our friendly staff were trained to observe hygienic measures.

Safe Eats: Enhanced food preparation and sanitation measures to ensure a safe dining experience for our guests. Dining operations also include "B On The Go" concept for take-out or delivery and room service ordering through guest room phone.

Safe Sleep: Stepping up Housekeeping level of cleanliness to ensure high-touch surfaces (knobs, light switch, telephone, remote control) in all guest rooms are safe, disinfected and sanitized. A "Safe Stay" clean seal shall be placed in guest rooms to inform guests that their rooms have been disinfected thoroughly and have not been accessed prior to their arrival.
